To: Spronken, Xavier (Stud. MSP) <x.spronken@student.maastrichtuniversity.nl>;

Hi Xavier,

This should do:

As her thesis supervisor, I hereby give my permission for Xavier Spronken to follow the additional course *Cosmology* during P4 in 2023 alongside his thesis.

Let me know if you need something more.

Be well,  
Claire

**Subject:** Taking Cosmology during BTR

Hello Claire,

I got back my UM logins this week and am looking to fill in all the required forms. The BTR proposal has been completed, but I also wish take an additional module (Cosmology in period 4). However the form requires a "supervisor approval form", I do not know what this is and have emailed and tried to call the BTR office multiple times since Monday with no reply. And I am getting worried as the deadline to submit this form was supposed to be 3 days ago.

Would it be possible for you to simply send me a confirmation that I can take Cosmology as an additional module this period, so that I can put this in the form and send it away?

Many thanks and Kind regards,

Xavier
